Nationality: Malaysian | Requires Singapore Employment Pass (EP) | Willing to relocate to Singapore

PROFILE

Software Engineering graduate from Monash University with industry experience at Western Digital, ERS Energy and Radiant GlobalTech. Skilled in full-stack web and application development using C#, ASP.NET Core, Python, Java, JavaScript, React, Node.js and SQL.

EDUCATION

Monash University Jul 2022 – Jun 2026
Bachelor of Software Engineering (Honours) | *CGPA: 3.81 / 4.0* Kuala Lumpur, Malaysia

Sunway College Jul 2021 – Jun 2022
Monash University Foundation Year | *CGPA: 4.0 / 4.0* | *Entrance Scholarship 2021* Kuala Lumpur, Malaysia

TECHNICAL SKILLS

Programming languages: C#, Python, Java, JavaScript, TypeScript, PHP, SQL, C, C++, HTML/CSS
Frameworks: ASP.NET Core, React.js, React Native, Node.js, Express.js, Bootstrap, Java Swing, Odoo
Data & APIs: PostgreSQL, Firebase / Cloud Firestore, RESTful APIs, Jira Cloud REST API, Stripe API
Architecture & practices: Domain-Driven Design, Unit of Work, Dependency Injection (Autofac), OOP, Agile / Scrum, SDLC, Git
Tools: Figma, Firebase Hosting, MATLAB, SolidWorks
Spoken languages: English, Mandarin, Malay (native); Hokkien, Cantonese (fluent)

EXPERIENCE

Full Stack Software Engineering Intern | Western Digital (WD) Oct 2025 – Dec 2025
C#, ASP.NET Core, SQL, Jira Cloud REST API, Autofac Kuala Lumpur, Malaysia

- Joined the Global Software Tools & Infrastructure (GSTI) team and built MatIndex, a full-stack internal platform (C#, ASP.NET Core, SQL) that scores code health, adopted by engineering teams at WD's Malaysia and India sites.
- Replaced manual code-health reporting with automated scoring and dashboards, significantly cutting reporting overhead and giving both sites one consistent, data-driven view of code quality.
- Engineered automated data pipelines from the Jira Cloud REST API and an internal Self-Service database, powering real-time scoring, team-level analytics and actionable insights for developers.
- Designed backend modules using Domain-Driven Design, the Unit of Work pattern and Autofac dependency injection, following modern API best practices to keep components clean, modular and easy to extend.
- Learned C#, ASP.NET Core and enterprise design patterns on the job, shipping a production tool in three months.

Odoo Developer | ERS Energy Sdn Bhd (Associated with Monash University) Mar 2025 – Nov 2025
Python, XML, PostgreSQL, Odoo ERP Malaysia (Hybrid)

- Customised Odoo ERP in Python and XML to build a helpdesk system for ERS Energy's pre-installation, post-installation and maintenance workflows, replacing a proposed third-party build and saving the company about USD 40,000.
- Worked directly with stakeholders to prioritise requirements and balance scope against a tight budget.
- Integrated the Helpdesk, Sales, Timesheets and Calendar modules to manage the full ticket lifecycle, from multi-channel intake (WhatsApp, phone, email, walk-in) through to completion.
- Implemented role-based access control with record rules for Managers, CS Agents, Salespeople and Technicians, and automated workflow chaining that books site inspections and triggers document-upload tasks.
- Built performance dashboards (hours spent, stage duration, status) with Excel/CSV export, and wrote the system documentation and user manual for deployment.

Software Engineering Intern | Radiant GlobalTech Berhad Jan 2025 – Feb 2025
HTML, CSS, Bootstrap, JavaScript Kuala Lumpur, Malaysia

- Built the front end of a stock-adjustment approval portal for Eco-Shop Malaysia's outlets, where approvers review adjustments and approve or reject each item with remarks.
- Built admin screens for three-level approval rules by quantity and price, outlet and region settings, and role-based access rights.
- Turned design specifications into responsive pages and worked with designers and backend developers to integrate the UI with backend services.

PROJECTS

EcoRoute: Carbon Route Planner Application | Final Year Project (Monash University) Jul 2025 – Jun 2026
React Native (Expo), Mapbox, Node.js, Express, PostgreSQL, Python, FastAPI, XGBoost
- Built EcoRoute, a React Native (Expo) and Mapbox app comparing carbon emissions across travel modes.
- Developed an OpenStreetMap routing engine with a Node.js/Express REST API, PostgreSQL, Swagger and Jest.
- Built a Python emissions model with XGBoost and FastSIM, explained with SHAP and served via FastAPI.

EcoStyle: Sustainable Fashion E-Commerce Platform Jul 2024 – Feb 2025
Team Lead & Full-Stack Developer | React.js, Node.js, Express.js, Firebase Firestore, Stripe API
- Led sprint planning and task delegation, shipping a full-stack platform with customer and admin portals on time.
- Built React interfaces for browsing, product detail, cart, wishlist and checkout, with filtering and reviews.
- Developed Node.js/Express REST APIs for products, orders and users, and integrated Stripe payments.
- Synced inventory and orders in real time with Firebase Firestore; deployed on Firebase Hosting.

Santorini: Digital Board Game (Monash University) Mar 2025 – Jul 2025
Team Lead & Software Developer | Java, Java Swing, Figma, Agile (Scrum)
- Led the team that built a fully playable digital Santorini board game from scratch across Scrum iterations.
- Built the game engine: turn-based logic, move and build validation, god-card abilities and win detection.
- Designed a modular OOP architecture, then extended it with two original modes: Coin Mode and Timer Mode.

AI-Driven Pac-Man Jul 2024 – Nov 2024
Python, Machine Learning
- Applied reinforcement learning so a Pac-Man agent adapts its strategy in real time.

Business Websites: mp3.vinyl, Stable Office Automation and Tang Concept Jul 2025 – Jul 2026
PHP, HTML, CSS, JavaScript |mp3vinyl.stable.com.my | stable.com.my | tangconcept.com.my
- Rebuilt and launched the live websites for two Malaysian office furniture and interiors businesses.
- Built Stable's responsive PHP catalogue (25 categories, 400+ products) with quotation and WhatsApp enquiries.
- Developed Tang Concept's furniture site with an enquiry form, WhatsApp contact and a PDF catalogue.
- Built the online store for mp3.vinyl, an independent vinyl record shop: a catalogue with genre and stock-status filters, cart and checkout with shipping and payment options, pre-order deposits and customer accounts.

James Dyson Award: Natural Disaster Mitigation Prototype Feb 2023 – Jun 2023
International Design Engineering Competition | SolidWorks, 3D Printing
- Designed and prototyped a disaster-mitigation solution for the James Dyson Award, run across 30+ countries.
- Modelled the design in SolidWorks and 3D-printed a prototype showing its technical and commercial viability.

OTHER EXPERIENCE

Electrical Technician | Greatech Technology Berhad | Penang, Malaysia Dec 2022 – Feb 2023
- Assembled and maintained automated machinery for First Solar (US), contributing to a 15% gain in line efficiency.

Pharmacy Assistant | Georgetown Pharmacy (CARiNG Pharmacy Group) | Kedah Apr 2021 – Jul 2021
- Advised customers on medication during COVID-19, lifting sales of recommended products by 30%.
- Organised a community health-screening campaign, promoting preventive healthcare and customer engagement.

LEADERSHIP & ACTIVITIES

Vice President & Head Coach | Monash Tennis Club Malaysia Jan 2025 – Dec 2025
- Ran club operations and coached beginner and intermediate players, driving skill development and retention.
- Organised and directed the Monash Cup 2025 tournament end to end: logistics, player coordination and scheduling.
- Secured sponsorships and industry partnerships to fund club activities and raise engagement in competitions.
- Won a bronze medal at the Monash Cup 2025.

Event Manager & MC | Google Developer Student Clubs (GDSC), Monash Malaysia Feb 2024 – Jun 2026
- Hosted technical workshops, hackathons and community sessions as Master of Ceremonies.
- Led a team to Top 8 in the Google Workspace Hackathon 2024; contributed to AI, ML and cloud projects.

Sub Event Manager & MC | Institution of Civil Engineers (ICE), Monash Malaysia Feb 2024 – Feb 2025
- Hosted engineering workshops and industry seminars, connecting students with professional engineers.
- Organised large networking events with industry professionals and led student outreach on civil engineering.

SMJK Chio Min (Secondary School) | Kedah, Malaysia Jan 2016 – Dec 2020
- Vice President & Percussion Leader, Philharmonic Orchestra; performed at MIMAF for four years (2017–2020).
- State-level tennis player for Kedah; Vice President of the Tennis Club.
